The Secretary to Government

Sir,

J. S. 28-26-1

On 5-10-26 I presented an application to the Registrar of joint-Stock Companies in mysore to register the association called the Aryan School Parents Association, Bangalore, under the Mysore Societies Registration Regulation of 1904. On this, the Registrar in his office memo No 83 dated 28th oct 1926, among other things, stated that a declaration that the signatories are desirous of being formed into a society in persuance of the memorandum of association should be entered.

To this in my letter No 15 dated 8-1-27 I pointed out to the Registrar at the instance of the Executive Committee of the association, that no such declaration was prescribed in section 3 of the regulation under which the association wished to be registered although such a declaration was perhaps necessary under the Companies regulation which does not apply to

to the present case

The Registrar however in his memo No 1075 dated 5-2-27 without adverting to the point raised by me or giving reasons to his opinion, maintains that the declaration should as already directed be entered in the memorandum of association

The Committee of the Association feels a difficulty in complying with the said direction more especially as the same is not covered by the Society's Regulation or any rule framed thereunder

Under these circumstances I request that Government be pleased to give a ruling in the matter and direct the Registrar to register the association without the declaration referred to above. ~~to be made~~.

Copies of the necessary papers are herewith forwarded for reference & Return.

Enclosure No One.

In returning, herewith, the Memorandum of Association and the Copy of the Rules of the Aryan School Parents' Association forwarded by him with his letter dated 5-10-26 the Honorary Secretary of the said Association is informed as follows:

I The Association must have only one name i.e. either the English name or the Kannada name. Both the names cannot be allowed.

II Memorandum of Association.

1. In place of Paragraph 4 on Page 2 a declaration that the signatories are desirous of being

formed into a Society in pursuance of the memorandum of association should be entered.

2. The addresses and occupations of all the signatories (in spite of their having been mentioned elsewhere) should be entered against the signatures on Page 2.

3. Erasures are not permitted. The signature against No. 2 which has been erased should be got struck off by the person who affixed it He should also initial the striking off.

III Rules.

1. The pages should be numbered consecutively.

2. The persons whose names are given on Page 1 of the Memorandum are said to form the first Executive body. In the Rules on Page 3 it is stated that the management should vest in the existing committee. According to the history of the committee given on Pages 2 and 3 the existing committee appears to mean the committee consisting of the persons whose names are given on Pages 2 and 3 As this committee and the Executive body are different in some respects it may be made clear in the Rules when the present Executive body consisting of the persons whose names are given the Memorandum was elected or appointed.

3. As the copy of the Rules has to be certified as correct by the members of the Executive body, the designation of the signatories on the last page may be entered as "members of the Executive body".

IV All additions and alterations in the Memorandum of Association and the Copy of the Rules should be initialled or signed by all the signatories.

V The documents may be returned after the above are attended to.

The Registrar of Joint Stock Companies

in Mysore, Bangalore.

Sir,

In re-forwarding for early registration the Memorandum of Association with the copy of the rules returned with your Memo No. 813 dated the 18th October 1926 for rectification, I have the honor to state that your memo containing observations on the Memorandum and rules was placed before the Executive Committee of the Association at its meeting on the 23rd November 1926 and I have been instructed to reply as follows

1. The Association has only one name and not two as presumed The one is only a translation of the other, essential for certain purposes and appropriate to the language of the rules or other -- papers where they may be used. Under these circumstances the Committee fail to follow the reasoning of the objection. However a suitable alteration is made to meet your wishes in the matter.

As regards the declaration proposed, the Committee wish to point out that no such declaration is presented in the Societies Regulation under which the association wishes to be registered. It may perhaps be necessary under the Companies Regulation which does not apply to the present case. And as such they feel it difficult to follow the suggestion made.

As regards the changes proposed in the signatures, they have been attended to, though that does not seem necessary.

In the rules the pages have been serially numbered as -- desired.

As regards the two committees pernaps some explanation is necessary. The Committee mentioned at the end of the preamble to the rules is the one which manages the school and is independent

of the parents Association. The Committee subscribing to the Memorandum is the Executive Body of the parents Association and accountable to that body alone. The first Executive Body of the Association was elected on 18-7-1926 at the time of inauguration of the parents Association, the School Committee continuing to function independently as before. The date of election of the Committee of the Association is mentioned in the Memorandum. The Committee fail to see how as suggested in your office memo under reference, the date of election of the present Executive body can be included in the rules which is a permanent code of regulations and the Committee being a temporary one changing its personnel by a vote of the Association.

The change in the designation of the signatories to the certificate at the end of the rules is made as desired.

You seem to be asking for an almost impossible thing in insisting on all the signatories initialling all additions and alterations in the Memorandum and the rules. However to make it acceptable to you, the rules have been copied afresh and the Committee hope that it will meet with your approval.

In conclusion, the Committee request that certificate of registration may very kindly be given them in order to enable them to proceed with the work they have been charged with.

It cannot be translated into any other language which would have the effect of giving two names for registration under which there is no provision in the Societies Regulation.
